

COVER LETTER

Dear Hiring Manager,

My name is Rishabh Jugran, and I'm a tech-savvy Data Analyst looking to flex my skills to identify new growth strategies for your Organization. I've always been fascinated by numbers, and working in data analytics has been a long-term goal of mine. My career in the Manufacturing & Real Money Gaming business has taught me to think strategically about problems and identify possible solutions.

I'm a Data enthusiast who is proficient in Relational databases & SQL, Python (Data Analysis Libraries), Spreadsheets (MS Excel & Google Sheets) & Tableau. I have more than 2.5 years of experience in Data Analytics field. I am also active on almost all the platforms for data Science like Kaggle, Github & HackerRank (where I have solved 55/58 SQL Problems along with the Gold Badge) etc. My Major Accomplishments in the Field are as follows:

- Automated repetitive Daily Reports like Top Winners & Losing Players, Revenue report, Tournament PnL etc with Python (Pandas & PySpark) , freeing up three hours daily.
- Helped Dr. Lal Pathlabs in delivering the Flyers Interactive Course on Advanced MS Excel to educate more than 3000+ employee base.
- Created Interactive Dashboards for tracking the important metrics like Deposit, Revenue Generation, Users Segmentation etc.
- Completed the Google Data Analytics Professional Certificate, which included extensive coursework in both SQL and R.

RISHABH JUGRAN
